Repercussions from RHA for losing the keys

Change out the keys for electronic fobs that can be put on a key chain

Add doorknob with fingerprint recognition

Give out a special holder for the keys so they can't be as easily lost

Change locks on all the dorms and make them electronic so students can use their phones to get into dorms.

Make a easy to use app.

Include a beeper with the key

Include mini-trackers with keys.

Remove all locks from dorms so keys aren't even needed.

Get rid of keys and use number code locks

Assign codes to students

Allow students to make spares of keys.

Create digital keys that can be kept on the phones

Phone hotline to help with finding lost keys

Tie a bell to their key so they can know when it's on them.

Integrate a tracker into the key

Charge money for replacement keys

Create a chip that can be put into a card similar to a debit card chip

Create a unlock/lock system with a bluetooth connection

Be able to use student ID to open door
