Seanario: Make all house keys digital

DIGITAL KEYS

Chelsea is on her way home after a long day at work.

Chelsea arrives at home for some rest

She relizes that she left her key at work

On the phone with her husband telling him that they should get digital key at the neighbors house.

A few days later Chelsea is testing out the new system that they have installed.

Chelsea leaving to go to work using her digital key.

Mark is on his way to work
hoping for a good day

While stuck in traffic he realizes
that he might have left his key to
get in the buliding but decides to
keep going

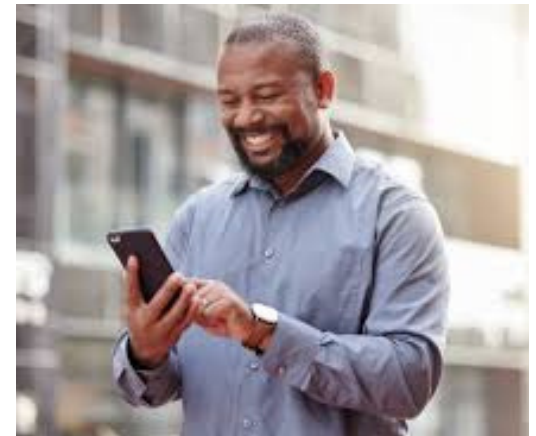

As Mark walks up to the
building he then realizes he
really doesnt have his key to
get in

Mark then calls his wife back
home and ask if she sees his
key anywhere in the house

She reminds him that he has a
tracker on his phone for his key

Mark then goes on his app to
track his key and ends up
finding in his car and can now
go into work
